### Shelves - mounting guide

1. Remove shelf from package.
2. Mount shelf on front pair of vertical extrusions by using mounting kits (DP-MO-01 - not included)
3. a) DP-PO: For fixing shelf on rear pair of vertical extrusions, use supporting brackets DP-PO-PO or DP-PO-PD (optional accessories - see picture B).  
b) DP-PT: For fixing shelf on rear pair of vertical extrusions, use included supporting brackets as on picture A or supporting brackets DP-PO-PO and DP-PO-PD (optional accessories - see picture B).
4. Shelf fixed this way is ready for use; maximum load rating is 20kg (DP-PT), and 60kg (DP-PO).
5. When mounting shelves deep 150, 250, and 350mm only on front pair of vertical extrusions, maximum load rating is 25% of what is stated in previous paragraph.

## 19" Shelves DP-PZ series

### Shelves - mounting guide

1. Remove shelf from package.
2. By using included connecting material, mount 4pcs of supporting brackets on shelf. Depending on distance between front and rear pair of vertical extrusions, it is possible to mount supporting brackets the opposite way than shown on picture.
3. Mount this way prepared shelf on desired position in rack by using mounting kits (DP-MO-01 - not included).
4. Maximum load rating of shelf (installed as described above) is 100kg of balanced load.
